Delete an Organization from an Enterprise.	[X] Test not created	Enterprise version of Trello is payable.
Remove a Member as admin from Enterprise.	[X] Test not created	Enterprise version of Trello is payable.

Labels		
Endpoint name:	**Status:**	**Optional description:**
Get a Label	[✓] Test created	
Update a Label	[✓] Test created	
Delete a Label	[✓] Test created	
Update a field on a label	[✓] Test created	
Create a Label	[✓] Test created	

Lists		
Endpoint name:	**Status:**	**Optional description:**
Get a List	[✓] Test created	
Update a List	[✓] Test created	
Create a new List	[✓] Test created	
Archive all Cards in List	[✓] Test created	
Move all Cards in List	[✓] Test created	
Archive or unarchive a list	[✓] Test created	

Move List to Board	[✓] Test created	
Update a field on a List	[✓] Test created	
Get Actions for a List	[✓] Test created	
Get the Board a List is on	[✓] Test created	
Get Cards in a List	[✓] Test created	

Members		
Endpoint name:	**Status:**	**Optional description:**
Get a Member	[X] Test not created	
Update a Member	[X] Test not created	
Get a field on a Member	[X] Test not created	
Get a Member's Actions	[X] Test not created	
Get Member's custom Board backgrounds	[X] Test not created	
Upload new boardBackground for Member	[X] Test not created	
Get a boardBackground of a Member	[X] Test not created	
Update a Member's custom Board background	[X] Test not created	
Delete a Member's custom Board background	[X] Test not created	
Get a Member's boardStars	[X] Test not created	
Create Star for Board	[X] Test not created	
Get a boardStar of Member	[X] Test not created	
Update the position of a boardStar of Member	[X] Test not created	
Delete Star for Board	[X] Test not created	
Get Boards that Member belongs to	[X] Test not created	
Get Boards the Member has been invited to	[X] Test not created	
Get Cards the Member is on	[X] Test not created	
Get a Member's custom Board Backgrounds	[X] Test not created	Most requests had the following message: "Unauthorized member permission requested." and I don't know why. In general this category would be too much work + playing with the other accounts ect. A waste of time for a simple exercise to check requests work and use Postman tool.
Create a new custom Board Background	[X] Test not created	
Get custom Board Background of Member	[X] Test not created	
Update custom Board Background of Member	[X] Test not created	
Delete custom Board Background of Member	[X] Test not created	
Get a Member's customEmojis	[X] Test not created	
Create custom Emoji for Member	[X] Test not created	
Get a Member's custom Emoji	[X] Test not created	
Get Member's custom Stickers	[X] Test not created	
Create custom Sticker for Member	[X] Test not created	
Get a Member's custom Sticker	[X] Test not created	
Delete a Member's custom Sticker	[X] Test not created	
Get Member's Notifications	[X] Test not created	
Get Member's Organizations	[X] Test not created	
Get Organizations a Member has been invited to	[X] Test not created	
Get Member's saved searched	[X] Test not created	
Create saved Search for Memer	[X] Test not created	
Get a saved search	[X] Test not created	
Update a saved search	[X] Test not created	
Delete a saved search	[X] Test not created	
Get Member's Tokens	[X] Test not created	
Create Avatar for Member	[X] Test not created	
Dismiss a message for Member	[X] Test not created	

Notifications		
Endpoint name:	**Status:**	**Optional description:**
Get a Notification	[X] Test not created	Can't get - "The ID of the notification"
Update a Notification's read status	[X] Test not created	Can't get - "The ID of the notification"
Get a field of a Notification	[X] Test not created	Can't get - "The ID of the notification"
Mark all Notifications as read	[X] Test not created	Can't get - "The ID of the notification"
Update Notification's read status	[X] Test not created	Can't get - "The ID of the notification"
Get the Board a Notification is on	[X] Test not created	Can't get - "The ID of the notification"
